International Standard Classification of Education : fields of education and training Information and Communication Technologies

lista alfabética

UNESCO Institute of Statistics

The International Standard Classification of Education (ISCED) is a framework for assembling, compiling and analysing cross-nationally comparable statistics on education. ISCED Fields of Education and Training classifies education programmes and related qualifications by fields of study.

Computer use USE 0611

Computer use is the study of using computers and computer software and applications for different purposes. These programmes are generally of short duration.

Programmes and qualifications with the following main content are classified here:

Computer use

Use of software for calculating (spread sheets)

Use of software for data processing

Use of software for desk top publishing

Use of software for word processing

Use of Internet

Conception et administration de bases de données et de réseau USE 0612

Database and network design and administration USE 0612

Database and network design and administration is the study of the design, maintenance and integration of software applications. Computer media applications are included.

Programmes and qualifications with the following main content are classified here:

Computer administration and management

Computer media applications

Computer network installation and maintenance

Database administrator studies

Information technology administration

Information technology security

Network administration

Network design

Web design

Desarrollo y análisis de software y aplicaciones USE 0613

Développement et analyse de logiciels et d'applications USE 0613

Diseño y administración de redes y bases de datos USE 0612

Information and Communication Technologies USE 061

Information and Communication Technologies not elsewhere classified USE 0619

Information technology studies not fitting in the detailed fields are classified here:

Artificial intelligence

Inter-disciplinary programmes and qualifications involving Information and Communication Technologies USE 068

Inter-disciplinary programmes and qualifications involving Information and Communication Technologies USE 0688

Inter-disciplinary programmes and qualifications to which the greatest intended learning time is devoted to information and communication technologies (ICTs) are classified here.

Programmes interdisciplinaires et certifications impliquant technologies de l'information et de la communication (TIC) USE 0688

Programmes interdisciplinaires et certifications impliquant technologies de l'information et de la communication (TIC) USE 068

Software and applications development and analysis USE 0613

Software and applications development and analysis is the study of the design and development of computer systems and computing environments.

Programmes and qualifications with the following

main content are classified here:

Computer programming
Computer science
Computer systems analysis
Computer systems design
Informatics
Operating systems
Programming languages development
Software development
Software programming

Technologies de l'information et de la
communication (TIC) USE 061

Technologies de l'information et de la
communication non classées ailleurs
USE 0619

Tecnologías de la información y la
comunicación (TIC) USE 061

Uso de computadores USE 0611

Utilisation d'un ordinateur USE 0611
